

Firenze

Sit tight in mid-flight

The Petrie Firenze is a supple calf leather boot with full-contact leather on the inside of the leg. The elastic insert runs along the zipper and the boot has a double spur-protector. Our perfectly fitting jumping boots don't pinch your knee-cavities and are essential for close-contact between rider and horse. The boot does not have the golden Petrie logo, but there is a unique red stitched pattern on the shaft. The Firenze boot is only available in black and has its own size chart.

Petrie Firenze characteristics
