

Rome

Buckle up butter cup

The Petrie Rome is a luxury leather boot with concealed zipper along the front. The outside of the shaft has a stitched pattern which is unique to this particular model and makes it fun to play around with different leather types. At the top of the boot and across the heel, this boot has a strap with a functional buckle. The buckle can be customized in gold or silver, with or without Swarovski rhinestones. The lower buckle strap can also be omitted, which is advisable if you regularly ride with spurs.

Petrie Rome characteristics

- Double or single straps
- Custom buckles in gold, silver or rhinestones
- Zipper along the shinbone
- Contrast sole and stitching optional
- Customizable panel on the shaft
- Fully customizable design
