

Sportive

Close contact hero

The Petrie Sportive is a versatile allround model, designed for close contact. Which makes it suitable as a trainingboot and a competition boot for both showjumpers and dressage riders. What makes this model special is the piping that runs along the shaft and foot, because the colour of the leather, the piping and the stitching are completely up to you. All customization options are possible. This makes it easy to play around with different leather styles and stitching on the same boot!

Petrie Sportive characteristics

- Slim-fit allround design
- Contrast stitching and sole optional
- Strong and durable leather
- Fully customizable panels
- Decorative whipholder
- Zipper along the calf
